

Your partner for managing aerosol waste recycling and disposal

> Remondis UK

Remondis UK is part of one of the world's largest water and waste management and recycling organisations, Remondis AG & Co. KG

Why choose Remondis UK for your aerosol waste recycling and disposal?

The disposal of aerosol cans should be a quick and easy task but, for many industries, this simply isn't the case. Now, thanks to our versatile waste packaging innovation, we can offer customers a smart, fully compliant solution that takes the hassle out of the disposal of aerosol cans.

Our robust stand-alone containers house all discarded cans from the start of the disposal process through to the collection and transportation service.

What's more, the flat-packed containers have been designed to be visually appealing so they look at home stood in an office environment, amenity site or a retail backyard, making them a truly multi-functional and user-friendly waste disposal system.

The transport-ready containers are UN-approved and certified for up to ten shipments. Once full, customers simply call to arrange a convenient collection slot, while additional containers can be ordered and shipped flat-packed through the post.

All waste is collected and processed through our ultra-modern, state-of-the-art waste transfer and recycling facility in Merseyside. Built to the highest standards, the Carr Lane site is able to process up to 69,000 tonnes of material each year within a safe, secure and fully-contained 24/7 environment.

> Our specialist services include:

Robust containers designed to look at home in office, retail and amenity environments

Fully compliant waste solution that houses aerosols right from the start of the disposal process through to collection and transportation

Flat-pack and transport-ready aerosol containers which have the advantage of being delivered through the post

UN-approved containers that minimise the movement of aerosols between one container to another, thus improving efficiency, and reducing costs

Complete control of your waste requirements, from collection through to recycling, reprocessing, recovery and disposal

The Remondis UN-approved aerosol container is available to order from Remondis' UK headquarters in Merseyside. For more information, call 0151 230 8800 or email sales@remondisuk.co.uk.
