# Welcome to REMONDIS

REMONDIS UK is part of one of the world's largest water, waste management and recycling organisations, REMONDIS AG & Co. KG. The REMONDIS group of companies has branches and agencies in 24 European countries, as well as Africa, Asia and Australia. Worldwide, the business provides services for more than 30 million people through a network of more than 560 plants. With more than 40 years' experience in the UK market, REMONDIS works throughout industry, local authorities, public and private health and government agencies to supply solutions for all types of hazardous and non-hazardous waste materials.

Nationwide coverage for all aspects of waste

> CLOSED-LOOP RECYCLING

## A responsible approach to closed-loop recycling

The REMONDIS approach is centred on protecting the environment and the conservation of resources. Through our application of the waste hierarchy, we aim to return as much material as possible to the commercial cycle through closed-loop recycling.

We aim to return as much material as possible to the commercial cycle through closed-loop recycling

### > How REMONDIS can help – our services in the UK

Hazardous waste – REMONDIS is licensed to accept all hazardous waste, with the exception of bio-clinical, grade one radioactive and class one explosives

Photo/x-ray waste – including fixers and developers, film, silver flake, single use cameras, video/CD material and WEEE waste

Printing waste – including aluminium plates, containers, fixers and developers, inks and ink tins, sludge, solvents, printing blankets, cartridges and WEEE waste

Electronic waste services (WEEE) – including keyboards, PCBs, PCs, monitors, printers, modems

Plastics recycling – including HDPE, PP, PS, ABS

Non-hazardous waste

### Turning waste into a resource

We operate a complete chain of services; from logistics and sorting, via pre-treatment and preparation, to the marketing of the reclaimed raw materials and fuels. We do this via our own logistics and processing networks.

### Total service

Ultimately, REMONDIS aims to support its customers by reducing costs, saving raw materials and making a sustainable contribution to the protection of the environment.

We have invested in nationwide infrastructure and personnel

Our team of experts is able to provide specialist containment for all types of reactive chemicals i.e. oxidisers

> ABOUT US

## A state-of-the-art site in Merseyside – total peace of mind

At REMONDIS, we pride ourselves on delivering ultra-modern disposal and recycling concepts through state-of-the-art sites using the most technologically-advanced equipment. As such, REMONDIS UK has recently invested nearly £10 million in a new waste transfer and recycling facility in Prescot, Merseyside, UK.

### Highest standards

Built to the highest standards, the Carr Lane site is able to process up to 69,000 tonnes of material each year within a safe, secure and fully-contained environment. Able to operate 24/7, 365 days a year, Carr Lane will process, transfer and treat a wide range of materials. In addition, Carr Lane acts as a central base to handle emergency spillage operations throughout the UK.

We cater for a wide range of requirements and are able to blend solvents for secondary fuels

Our state-of-the-art site in Merseyside hosts fully-equipped laboratories

### Fully compliant

The REMONDIS Carr Lane Recycling and Treatment facility is the first new build, fully compliant SG 5.06 site in the UK, maintaining the principle of Best Available Technique (BAT) throughout its construction. As such, all waste is handled within purpose-built structures with full monitoring systems for air and liquid waste emissions, which ensures nothing leaves the site without being checked.

## Why choose REMONDIS?

The joint experience of the REMONDIS Group means we are able to reclaim increasingly more raw materials, closing the loop to deliver environmental and financial benefits to our customers, partners and the wider community. All activities, processes, products and services comply with our statutory and contractual requirements, while being focused on meeting the needs of our customers, staff and suppliers.

All activities, processes, products and services comply with our statutory and contractual requirements

**1 Value added expertise**  
With accurate and modern sorting systems, we can ensure separation of waste streams and clear identification of resources.

**2 Innovative space saving**  
If required, we can provide small space-saving containers and regular collections to release valuable production space. Get in touch to find out more about the Small User Drum Service (SUDS).

**3 Complete flexibility**  
We involve your teams at all stages of the operation and provide our own specialist staff as required, whichever suits your business the best. Collections are arranged at intervals to suit you and we will undertake a site audit to ensure the best mixture of storage, service and collections.

**4 Efficient outsourcing**  
In many cases, we can take over waste management responsibility for you, leaving you more time for your core business activities.

**5 Peace of mind**  
We are fully licensed, certified and compliant for all of our operations. In addition, we are working to develop new standards for the industry where none currently exist.

**6 Responsible outcome**  
Through the REMONDIS network, we systematically process solid, liquid or pasty waste into alternative fuels and other products which ensure a completely closed loop material cycle. REMONDIS had the first licence for trans-frontier shipment (TFS) of hazardous waste from the UK to Germany.

At our state-of-the-art site in Merseyside, we offer fully-contained loading/unloading areas within a safe and secure environment

### > The REMONDIS UK team – experts in your field

We recruit REMONDIS UK team members in line with their expertise in a specific area of waste management. Every member of the REMONDIS UK team is trained to operate to the highest standards.

We invest heavily in our people, meaning that we are able to offer our customers a REMONDIS UK representative who is an expert in your field. We also work with our partners to develop the systems and processes which will ensure the best return on their investment.

Carr Lane Recycling and Treatment Facility in Prescot

WORKING FOR THE FUTURE

REMONDIS is one of the world's largest recycling service and water companies.
