

FLOOR & WINDOW CLEANING TOOLS

LIQUIDATOR
patent pending

EASE
VALUE

MISSION & MILESTONES

Develop, produce and market durable, innovative tools for floor and window cleaning, that:
are **Efficient** / deliver **Amazing results** / contribute to the user's **Safety** / are **Ergonomic**
to be sold in retail and professional markets.

1885

Foundation of Moerman
> brush manufacturing

1970

First exports to Middle East via
Vero International

1950

First developments and
production of floor squeegees

1995

Foundation of Moerman Americas
> sales in the Americas

SALES ORGANISATION

Worldwide sales to 75+ countries across the globe

Headquarters

Moerman nv, located in Meulebeke, Belgium

Sales to Europe, Middle East, South America, Africa, Asia & Australia

Branch office:

Moerman Americas Inc., located in CA - San Ramon, USA

Sales to North America

Our people are committed to respond to the customer's needs

+130 years of experience & continuous innovations

2001

Acquisition of Vero Int.
> Vero brand & expand sales
network

2012

Moerman enters the professional
window cleaning market

2004

Launch of a retail window
cleaning concept (AW)

2015

Moerman launches the EASE concept
(Liquidator)

PRODUCTION & WAREHOUSE FACILITIES

State of the art production

BELGIUM - Fully automated mass production

Factory & warehouse: 11.000 m²
600 m² offices and showroom

CHINA - Labour intensive production

ISO 9001 and BSCI certified

OUR STRENGTHS

Experience

- Solid experience in production and innovation
- World leader in floor squeegees – Universal benchmark
- A base to strive for product leadership in window cleaning tools

Production

- Mass production capacity
- Belgium: state of the art technology
 - high degree of automation
- China: ISO and BSCI certified

Your trusted partner
for a successful
business

Research & Development

- Continuous efforts to improve and innovate
 - > Liquidator = Unique innovation in manual window cleaning
- In house development team
- Dedicated developments for OEM

Service

- Pro-active customer service
- High degree of flexibility and reliability
- Direct and frequent contact with the market

Quality

- High quality products = benchmarks in the industry
- Dura-flex® rubber = unique natural floor and window squeegee rubber

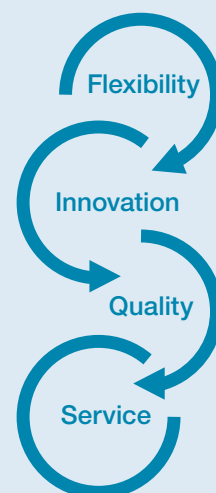

Our values

Moerman products respond to the EASE principles

Team

The Moerman team stands for

FLOOR CLEANING

Moerman, the Worldwide standard

In 1950 Moerman was one of the first companies to produce floor squeegees with double-bladed moss rubber.

Today, Moerman has a proven track record of producing floor squeegees with unique Dura-Flex® rubber for all types of surfaces.

MADE IN BELGIUM

Dura-Flex® label

Dura-Flex® brand = guarantee that the squeegee has the best natural rubber = perfect results

Branding in metal frame

All our Moerman metal squeegees with natural rubber are Dura-Flex® branded.

Dual blades

The blades are riveted into place and held securely with a galvanized steel locking strip.

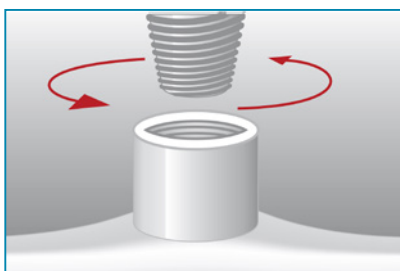

Explanation for which usage the rubber is used best

Black natural rubber = general use
White natural rubber = hygienic use
Red rubber = oil resistant

Explanatory coloured label

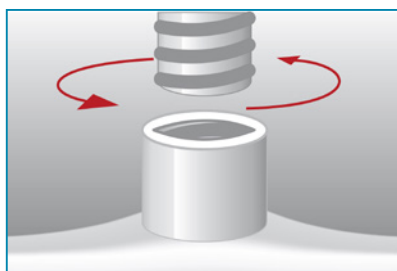

All our squeegees with natural rubber carry an explanatory coloured label.

INSERTS & THREADS

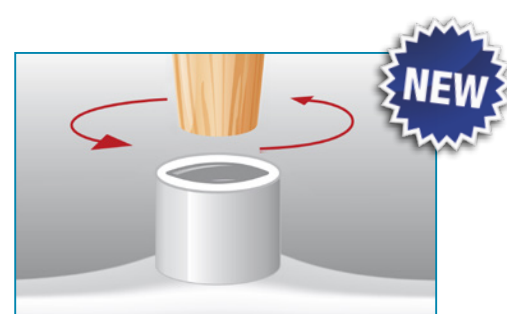

German threaded

Combine with Moerman handles: pg 27

Acme threaded

Combine with Moerman handles: pg 27

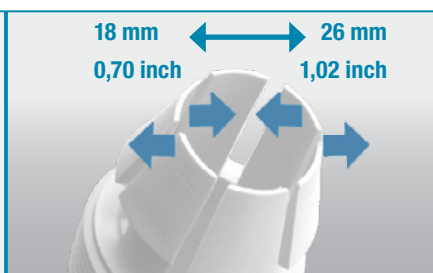

Self tapping insert for wood handle

Available for Hybrid floor squeegee and Profi & Profi+ floor squeegee

Universal cap

Fits all handles tight.

Universal socket

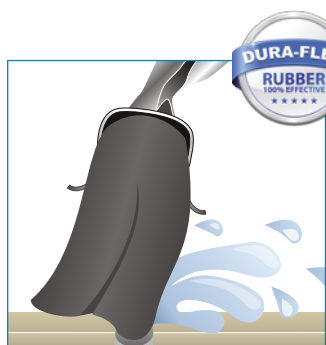

With built-in screw & nut

DURA-FLEX RUBBER

Unique know how of natural rubber

The Dura-Flex® moss rubber used for our floor squeegees is the best rubber in the world for floor cleaning. The moss rubber blades have been especially developed to fit the application of floor squeegees.

Dura-Flex® Rubber - Natural Moss Rubber

- **Durable** - lasts longer
- **Strong & Flexible**: extreme high resistance to tearing and abrasion
- **Excellent elasticity**: the blades dig deep into uneven surfaces and recover their shape after use
- **Closed cell rubber**: has perfect density and does not absorb water.
The natural skin adds strength and helps prevent bacteria from harbouring inside the squeegee.
- **Multi-surface**: use on both smooth and uneven surfaces like concrete, brick, tile and marble
- **Double rubber blade**: double cleaning - superior cleaning results

A specific rubber for every application

Black Dura-Flex® rubber

- Good general all-purpose rubber
- Ideal for cleaning areas where resistance to heat and oil is not required
- Popular in light commercial, schools and public facilities

Caution: black rubber can leave spots on pale floors

White Dura-Flex® rubber

- Used when hygiene is an important factor
- Users can easily see when the squeegee needs to be replaced
- Preferred to cleaning sanitary rooms, swimming pools...

Red Dura-Flex® rubber

- Contains Neoprene to give excellent resistance to oils, acids, greases and solvents
- Preferred in factories, auto care and maintenance facilities

Green Dura-Flex® rubber - unique rubber!

- The green blade is produced with materials approved by the FDA*
- Recommended when hygiene is extremely important
- Preferred in food service and health care facilities

**The Food and Drug Administration is one of America's oldest and most respected consumer health protection agency*

ASPHALTING FLOOR SQUEEGEE

- One blade, black compact rubber
- Heavy duty metal frame
- To be used on coated and uncoated smooth concrete floors, asphalt and other smooth surfaces
- For moving large volumes of water, mud, slush, snow...
- Used in factories, constructions sites, agriculture facilities

TRADITIONAL FLOOR SQUEEGEE

- Single, 6 mm / 1/4" thick black, non marking blade
- Straight frame
- Rust-resistant black powder coated frame
- To be used on coated and uncoated smooth concrete floors, asphalt and other smooth surfaces
- For moving large volumes of water, mud, slush, snow...
- Used in factories, construction sites, agriculture facilities

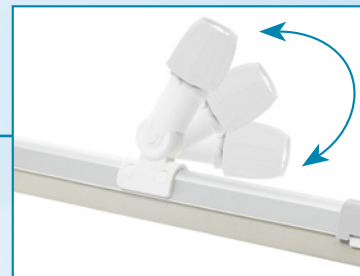

PREMIUM FLEXI SQUEEGEE

COLOR
CODED

Clips to hold cloth. Available in 5 colors - HACCP

- Smooth surface frame
- **Replaceable cartridge:** more economical, more ecological

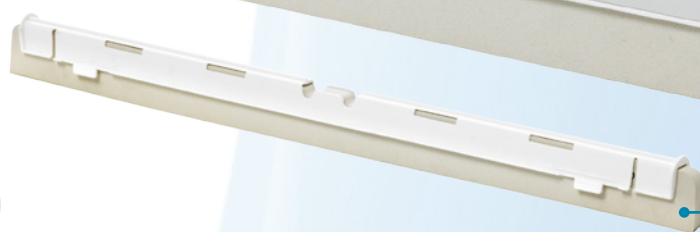

Flexible handle holder:

- Easy to clean hard to reach spots
- Increased ergonomics

Universal handle holder: allows handles with diameter 18–26 mm/ $\frac{45}{64}$ "–1"
Combine with handles pg 19

MICROFIBER: PREMIUM & SILVER SLEEVE

In our microfiber sleeves, the fiber is split during the manufacturing process to produce multi-stranded fibres.

The split fibres and the size of the individual filaments working in conjunction with the spaces between them makes the cloths more effective than other fabrics for cleaning purposes.

The structure traps and retains the dirt perfectly and also absorbs liquids.

PREMIUM SLEEVE

Premium Microfiber sleeve
