LEADING THE WAY IN DISPENSING SOLUTIONS

Leonardo's dispensers, soap and paper products have been developed alongside each other to deliver significant cost and volume in use savings, as well as to improve hygiene standards across all areas of the washroom and workplace.

Both the Leonardo Compact and Leonardo Classic ranges of complementary and aesthetically pleasing dispensers can demonstrate significant cost, hygiene and environmental benefits when compared to existing toilet, hand washing and drying options.

In addition, our Select range incorporates all the same great cost-in-use savings and hygiene standards of the Compact and Classic ranges, with a high quality finish. The stylish matt white design adds an aesthetic appeal, ideal for customer facing washrooms.

BUYING GUIDE

We know it can be difficult deciding which dispensers and products are most suitable for your facilities, so we've put together a handy guide to help you find what you need.

Though we think Leonardo products are versatile enough to suit most needs, there are some we think particularly stand out for specific needs or locations. Use the symbols below to direct you to the products most relevant for the needs of your business.

SYMBOLS

FOOTFALL

Low to medium footfall

Busy washrooms with higher footfall

CUSTOMER IMPRESSIONS

Products ideal for customer-facing locations, designed to make an impression

A good choice for more budget-conscious facilities

NO TOUCH

Ultra-hygienic no-touch dispensers, ideal for locations where hygiene is paramount

WHICH PRODUCTS ARE RIGHT FOR YOU?

Leonardo can supply dispensing solutions for the full washroom with toilet roll, soap and hand drying options to suit all environments and user requirements. Every product we produce is ethically sourced and created with an environmental conscience. The Leonardo range of dispensers reduce waste, control consumption and offer hygiene benefits to all users.

TOILET ROLLS

Virtually all of the Leonardo toilet rolls are manufactured from 100% recycled waste paper and are Ecolabel certified. Available in 1 or 2 ply options, they have been designed to fully maximise the dispenser's capacity whilst maintaining user comfort standards.

- High quality
- Environmentally friendly
- Catering for all needs with options from cost effective 1-ply to impression-making Luxury 2-ply
- Ideal for high volume washrooms

- Paediatrician approved - safe for nurseries and childrens healthcare

FEATURES AND BENEFITS OF A LEONARDO DISPENSER

Leonardo dispensers and the products that go through them have all been designed and developed with three core principles in mind; Reducing cost and volume in use, improving hygiene standards and respect for the environment.

Reducing Cost and Volume in Use

The 'Cost and Volume in Use' benefits of a Leonardo dispenser mean that less is literally more.

When considering any new dispensing system it is not just the cost of the product currently in use that should be taken into account but also how much and how often it is purchased. Leonardo's systems offer a higher capacity and more efficient dispensing solution which give user benefits of less waste, less frequent refills, fewer orders and deliveries and more janitorial storage space.

All against a backdrop of improved hygiene and, just as importantly, significant cost savings.

By developing paper and soap products that fully maximise the dispenser's capacity and by controlling user consumption through dispenser innovation, Leonardo can demonstrate cost and volume savings in any washroom or workplace environment.

Improving Hygiene

When hygiene is paramount, Leonardo will fulfill even the highest of hygiene requirements.

Improving standards of hygiene is at the core of Leonardo's philosophy, without compromising cost savings or respect for the environment.

By producing wipe-clean, lockable dispensers that encase the rolls, and paper products that reduce bacteria on the hands, Leonardo has been proven to deliver exemplary hygiene standards across all industry sectors and is the preferred choice in many healthcare, food and educational environments.

Respecting the Environment

By offering 100% recycled and Ecolabel tissue options, and ensuring that all dispensers are manufactured under the strictest environmental controls and are all fully recyclable, Leonardo is proud to create products that are more than effective in use yet are kind to the planet. Leonardo's intelligent dispensers provide the user with the correct amount of paper, reducing waste and ensuring that less paper is used whilst costs are controlled.

Toilet Roll Dispensing

Cost and Volume in Use

1 case of 2 ply Versatwin is equivalent to:

3.3 cases of 36 x 250 sheet bulk pack

2.5 cases of 6 x 200m centre-pull

Manual Soap Dispensing

LEONARDO QUALITY STANDARDS

ISO9001

All Leonardo products are manufactured under strict ISO9001 quality standards, ensuring the manufacturing processes are both effective and efficient and that the highest standards of quality are maintained. This means that the finished product meets the expectations of both Leonardo and the customer.

CHSA

As a member of the CHSA, Northwood Hygiene Products Ltd, owners of the Leonardo brand, adhere to a strict code of practice for accurate product descriptions and labelling, meaning that whatever is stated on the label is what is in the box.

Ecolabel

With all our dispensers offering recycled paper options, Leonardo's environmental credentials are further enhanced with the Ecolabel accreditation awarded on selected product lines. The accreditation mirrors Leonardo's forward-thinking approach to the wider environment and the importance of protecting our natural surroundings. By putting the Ecolabel logo on our products, we are encouraging customers to consider sustainability during the buying process.
